

The awareness for Open Data, from policy to legal, technological and governance issues varies from country to country and depends on open information flows between different stakeholders, as well as a change of mindset in the public sector. *What are the trends and developments in public information internationally, especially in Asia?* The talk will draw on Open Data development in the US, Europe and Asia.

Creating Socio-economic Value through Open Public Data

Waltraut Ritter is a research director of Knowledge Dialogues which she founded in Hong Kong in 1997, specializing in applied relating to innovation, knowledge, and intellectual capital. She has focused on the knowledge economy and innovation initiatives for national and international agencies in the public sector.

All are welcome!!!
